U P D A T E

CLEANING AND DISINFECTING PROTOCOLS

- Thorough cleaning of high traffic areas
- Frequent disinfecting of commonly used surfaces
- Clean and sanitize shared equipment between each use (mics, podium, computer keyboards, musical instruments, etc.)
- Clean touchable surfaces between users (doors, light switches, chairs etc.)
- Using disposable or washable seat covers, and change or wash after each use (This is significant for us)
- Touch-free hand sanitizer at each entrance and contact area
- No hymnals or Bibles unless you bring your own. Bulletins could be placed on each seat ahead of time but cannot be handed out or picked up from a pile.
- If pastors wear robes and stoles, they will need to be laundered/cleaned after each service
- No passing of offering plates or other shared-touch items including communion cups.
